Create Your Own Lesson Story

Work in teams or individually to create a story that develops characters, identifies a problem, provides a solution to the problem and states a lesson to be learned/taught.

Characters (Who is in your story? Human, robot, animal)	What special powers do they have
What is the setting (A long time ago or current time or future time)	Describe how the setting looks
What is the problem (What happened that needs to be fixed)	What led to the problem Who caused the problem
How was the problem solved (Who and How was the problem solved)	How was the solution identified Any special powers that helped solve the problem
What was learned from the story (What is the moral or lesson from the story)	What was learned about each character
